

PSC DHHS 2009-2014

NOTES:

The contracts in the dataset are based on a point in time and reflect a “run” date of August 28, 2014. Please note that amendments with start and end dates in June and July of 2014 may not have the most “up to date” statuses due to occurring within the Divisions, i.e. assuring all contract documents are properly signed before executing the contract or reviewing all deliverables before closing a contract. Contracts that have been terminated in the system are not in the dataset. Individual year worksheets reflect contracts that were active during any part of that fiscal year.

Column "D" - The original DHHS contract database allowed for entry of multiple organizational classifications. The Open Window system does not allow for this anomaly to occur. We have recognized and corrected this problem.

Column "I and "J" – DHHS Open Window went live for contracts at the end of July, 2011. Therefore the majority of start dates prior to July 31, 2011 will not have Waiver Justification and Type. This data was not required in the system.

Column Q: Contract Amount represents the current contract amount reflective of the last recorded amendment. Contract Amount does not reflect the actual amount of money that has been paid out over the life of the contract.

The Office of Education Services was moved by the Legislature from the Department of Health and Human Services to the Department of Public Instruction effective July 1, 2011.

The Office of Economic Opportunity was transferred to the Division of Social Services.
